

Harry Rule, Slovenia. Bought near Bovec

Having made the decision to leave the UK to live Slovenia, I needed to find a reputable company that would assist me in making the transition. After extensive research, I chose Justin and Eva of Slovenia Estates. From my initial email outlining the type of property I was looking for, I was treated with the utmost professionalism that made the buying process simple. They guided me through the unknown purchase procedure, providing me with solicitors, translators, mortgage lenders, tax numbers and short of moving my entire furniture from UK (they even stated it was possible!!) they ensured that all my needs were taken care of. Within minutes of viewing the house they had found for me, I knew it was the house of my dreams. I value their honesty, integrity and loyalty and fully recommend their services. I believe their knowledge and expertise to be unsurpassed in the Slovenian property market and I cannot thank them enough for going that extra mile to ensure I bought my house.
