

## Lis Kolkman, UK, Sold in Mojstrana

Last year we looked to sell our house in Mojstrana, and chose Slovenia Estates, run by Englishman Justin and his excellent team. They had come to our attention via a recommendation; we have been thrilled by the results. One of the attractions for us was that they were able to explain in detail in English the process and procedures needed in order to market and sell our house. Having visited our property, they guided us on the price we could expect and took some excellent photographs which he used to advertise our property on his well thought out website. As the sale progressed, Justin and his team handled everything associated with the viewings, which in itself offers tremendous peace of mind. Once we had agreed a sale, Justin's team handled all the official details via telephone and email, such that when we flew out to complete the sale the process was simple and finished in a day. His team dealt with the formal handover process and handled the monies transfer at the end of the deal. Having now gone through the entire house selling process with Justin & co, we have no hesitation in recommending him and his team to anyone looking to buy or sell a house in Slovenia, they are fabulously professional and as a result you get a sense of reassurance and confidence that they will do their best for you, we will definitely be using them again when making our next purchase in Slovenia.
