The estate includes three buildings and offers a variety of uses for residential, commercial, or leisure purposes (subject to acquiring the necessary permits).

Main Building – 1,500 m² of space

This three-story building is divided into production, office, and residential areas:

 - The smaller apartment offers a kitchen/living room, bedroom, and bathroom.

The building is equipped with mains electricity, water, sewage, and internet, and is heated by a central wood-fired system.

Outbuilding

Built in 2013, this outbuilding is partially enclosed on three sides and currently serves as a storage area. It offers 170 m² of space that could be adapted for a variety of uses, such as a workshop, garage, etc.

Historic Building – Former Cartman's Pub (256 m²)

This protected heritage building, dating back to 1672, was once a local inn and is a great example of traditional regional architecture. While the lower ground floor has been renovated into a wine cellar, the rest of the building is in need of restoration.

Outdoor Areas - Privacy and Potential

The estate also features a summer kitchen and shaded seating area, perfect for outdoor dining or entertaining. The surrounding gardens and woodland provide plenty of space. A large parking area is also available.

Despite being in the heart of the village, the property is very private and quiet, offering a peaceful environment.
